Let's Start!

Pronunciation Spot: My thumb is throbbing!

Learning Outcome

Exchange advice and suggestions in communicative situations.

Ask your partner:

- Have you ever injured yourself? What happened?
- Can you think of words that have the /th/ sound in them?

Can Do Statements

- I can talk about injuries and accidents.
- I can say and use the sound *th*.
- I can use proper intonation in long questions.

Let's Explore!

Ouch!* Vanessa hurts herself bowling. What happened?

* When you hurt yourself, you can say "ouch" to express pain.

Instructions: Read the text aloud.

Vanessa: Sal, let's think about lessons later. Let's bowl!
Sally: You're right. I don't know if I'm wearing the right clothing for this. Should I be wearing thicker socks since these bowling shoes are thoroughly disgusting?
Vanessa: My socks are thin, too!
Sally: My brother used to bowl all the time.
Vanessa: Why did he stop?
Sally: He hurt his thumb. He twisted it in one of the holes in the bowling ball.
Vanessa: Ugh - sounds terrible!
Sally: Yeah, he was seething afterwards because he had to drop out of the competition.
Vanessa: That's too bad! OK, I'm going to try and bowl my first one. Ready?
Sally: OK, remember to breathe ...
Vanessa: Ouch!
Sally: What happened!
Vanessa: I twisted my thumb! My thumb is throbbing! The ball fell on my foot, too. Oww! The ball went thundering down the lane and into the gutter and I didn't even get a strike? Wow, maybe I should reconsider those lessons.
Sally: No kidding! There's a class on Thursday. Should I sign us up?
Vanessa: I can't move right now, Sal!

Let's Practice!

Time to pronounce the th sound.

Instructions: Organize the mystery words. Read the words aloud. Check your pronunciation with your instructor.

1. chiterk

2. bhunt

3. lorughthoy

4. brobinthg

5. ghteesin

Let's Practice!

He hurt himself bowling.

Instructions: Read the paragraph. Complete the paragraph with the correct words. Use words from the box below.

seething
twisted
brother
thumb
throbbing
hurt

My _____ used to bowl all the time. He stopped it when he _____ himself. He hurt his _____ when he was bowling. He _____ it in one of the holes in the bowling ball. The ball fell on his foot. His thumb was _____. He was _____ afterwards because he had to drop out of the competition.

Extension Activity

Let's write a dialogue.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Imagine you are doing an activity and you hurt yourself.
- Write a dialogue between you and a partner talking about the injury.
- Make sure you describe how the injury happened and how you feel.
- Practice the dialogue with your partner.

Self-Assessment

Yes

No

I write a dialogue about an injury.

☐ ☐

I explain how the injury happened and how I feel.

☐ ☐

My partner and I talk about and injury and how it happened together.

☐ ☐

Target Words

- **thoroughly** (adverb): completely
Example: These bowling shoes are thoroughly disgusting.
- **to seethe** (verb): to be very angry
e.g. He was seething afterwards because he couldn't go to the competition.
- **to drop out of** (verb): to stop without finishing an activity (e.g. school, a contest)
e.g. He had to drop out of the competition.
- **to throb** (verb): to pulse with pain
e.g. My thumb is throbbing.
- **to breathe** (verb): to inhale and exhale from the body
e.g. OK, remember to breathe ...
- **to thunder** (verb): to move noisily
e.g. The ball went thundering down the lane.

Learning Points

Pronouncing the Consonant Blend /th/

There are two ways of pronouncing the /th/ consonant blend sound in English.

1. Unvoiced.

You do not use your vocal chords to make the sound. You do not feel any vibration.

Say these words:

- three
- think
- bath
- nothing

Touch the front of your neck as you say the words. Can you feel any vibration when you say the /th/ sound? You shouldn't.

1. Voiced.

It is made by putting the tongue between or just behind the teeth. The tongue presses and then moves away.

Say these words:

- this
- mother
- together

Touch the front of your neck as you say the words. Can you feel any vibration when you say the /th/ sound? You should.

Can you try this tongue twister?

Thirty-three thirsty, thundering fathers thumped Mr. Thurber on Thursday.

Learning Points

Intonation in Long Questions

Intonation is important in long questions. You use the rise and fall of your voice to show the listener when you are or are not finished.

In long questions, the intonation falls and then rises to show the question is not finished. The intonation rises or falls at the end, depending on whether it is an information or yes/no question.

Say these sentences. Vary the intonation on the bolded words. Be sure to notice if the question is an information or yes/no question.

*Should I be wearing thicker **socks** since these bowling **shoes** are thoroughly **disgusting**?*

*The ball went thundering down the **lane** and into the **gutter** and I didn't even get a **strike**?*

*How many times a **week** do you have to **practice** if you want to be a better **bowler**?*
